

The R series is available in all power levels in both red and green. It uses a remote style power supply (SA-115 -see specifications) that can be easily replaced in the field in case of damage and plugs directly into a standard wall outlet.

All Lumberline Laser models come with the industry leading two year warranty, covering failures due to manufacturing defects.

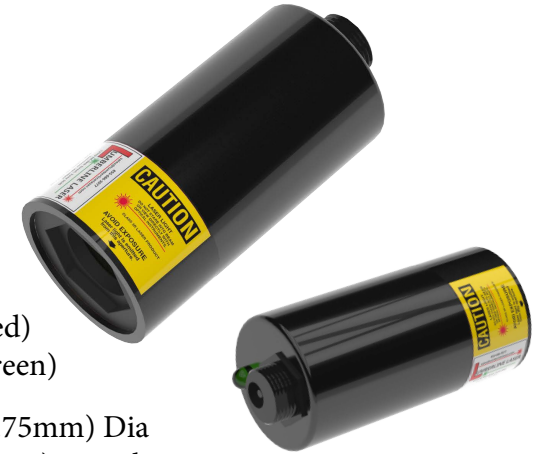

\*Laser mounted with the SA-008 Stationary Mounting Bracket

Designed & Manufactured in the USA Since 1985

### Specifications

- Requires SA-115 PSU
- Voltage: 3-9vdc
- Amps: 100ma
- Wavelength: 635nm (Red)  
520nm (Green)
- Size: 1.250" (31.75mm) Dia  
2.750" (70mm) Length
- Fan Angle: 60 Degrees
- Class II & IIIr
- Warranty: 24 Month

### Model Numbers

Numbers Correspond to the Power Level Required (See Specifications)

#### RED

#### GREEN

- ### Power Levels
- 05mW (up to 6' line)
  - 10mW (up to 12' line)
  - 15mW (up to 15' line)
  - 20mW (up to 20' line)
  - 30mW (up to 24' line)
  - 50mW (over 24' line)
